Scott Lomas Keynote Address:
**Integrated Marketing for
Multi-Campus Institutions**

How can multi-campus institutions balance the various levels of marketing needs and goals in a multi-campus system? What's at risk if there is not sufficient integration and what's to be gained by dedicating resources to this goal? Do your target audiences really care if you're integrated? This presentation will suggest a model for a clear delineation between institutional brand marketing needs and campus based direct response marketing needs. Topics will include brand development, recruiting, and fundraising and also a discussion of how an organizational structure both within and across campuses can contribute to successful integration.

Scott Lomas is a principal consultant for Stamats, an integrated marketing communications company serving colleges and universities. He has more than 10 years of marketing and advertising experience, primarily in higher education, with expertise in institutional brand marketing and integrated marketing.
